“ Roy was a wonderful, sweet, gracious man that was a client (patient) of mine. I loved him dearly. He was always so polite and kind. I tried to call him Mr Jennings but he wouldn't have it. He said “my name is Roy”. After that it was always Roy. We had a lot of conversations and he would always say “thank you”, I would say for what. He would always say, for the good conversation. He loved his family and he loved his deceased wife. He told me how he would go to the nursing home at 9 am and stay till 9pm every day. Now that is love. He was also a gentleman, he always wanted to open the door for you and turn on the light. He always stood at the door and watched me leave after my shift was finished. I put my name in his phone and told him to call me anytime that he needed me. I only lived 15 minutes away. He didn't want to put anyone out. I will always remember his kind heart and warm spirit. Rest In Peace “Roy”. I love you
